

Personal Statement

I am a motivated and ambitious person. I love being outdoors climbing and hill-walking.

I used to work in the outdoor industry delivering center activities onsite and offsite, I did this between 2007 – 2013. My personal circumstances changed and I left the outdoor industry and joined the Rope Access and Industrial Climbing industry. I am currently still working full-time in this industry, where I am a trainer/assessor.

Outside of my work life I am an active member of my local Search and Rescue Team, since 2009. I have held many positions such as SARDA dog handler, Search Manager, Team Leader and Rope Rescue Lead.

In 2021 I passed my Summer Mountain Leader and decided to use this qualification to go back to working with children and young people as well as adult groups. Working in the outdoors is now a hobby of mine, where I get to share my passion for what I do. All I want to gain from this, is to meet good people, in good places, doing good things.

In 2021 I also joined the BMC's Technical Advisory Committee. Using my climbing, mountaineering and industrial knowledge to hopefully benefit the outdoor community.

Kind Regards,

Rob Messenger
